

Certified for Confidence

About Solar Insure

Since 2006, Solar Insure has protected solar investments with our unmatched 5-star SI-30 Warranty Solutions. Our mission is to elevate the solar industry by setting higher standards –thoroughly vetting the providers we work with for financial health, installation quality, and service history. We give homeowners peace of mind with reliable coverage while helping solar companies build trust, reduce risk, and deliver long-term value.

What it means to be a Solar Insure Certified Provider

At Solar Insure, peace of mind starts with high standards. That's why every certified provider goes through a rigorous multi-point evaluation, ensuring they meet the criteria that matter most to homeowners and the future of solar.

No Active or Pending Legal Disputes

We confirm a clean legal history with no ongoing or unresolved litigation related to solar installations or service.

Financial Strength

We review balance sheets to ensure financial stability and long-term operational support.

Customer Satisfaction

Verified reviews and service histories are assessed to confirm responsiveness and positive homeowner experiences.

Warranty & Compliance History

Installers are reviewed for adherence to our warranty procedures and industry best practices

Insurance & Licensing Verification

All certifications, licenses, and insurance policies are validated and up to date.

Industry Reputation

We vet references from manufacturers, suppliers, and partners to ensure professionalism and reliability.
